## ☀️ COMMUNICATIVE SKILLS

Spend some time each day engaging your child in conversation and activities that encourage speaking and listening. Help him/her become familiar with their name, age, address, phone number, and the names of their grandparents & parents.

We request you to introduce a new word to your child's vocabulary every day throughout the summer break. Whether it's during breakfast conversations, outdoor adventures, or bedtime stories, there are endless opportunities to introduce new words and meanings. Encourage your child to explore the meaning of each word, use it in sentences, and even create fun games or activities around it. Not only will this exercise stimulate their curiosity and creativity, but it will also prepare them for the academic challenges ahead.

**We have also set forth some tips for the parents to make this vacation a fruitful experience for the children:**

- Visit parks like Cactus Garden, Herbal Park, Yavnika and Shivalik Garden etc. or have a picnic in the backyard. Encourage your child to observe plants, insects, and animals, sparking their curiosity about the world around them.
- Set aside time each day for reading. Visit the library together to discover new books or create a cozy reading nook at home. Encourage your child to choose books that interest them and read aloud together, discussing the stories and characters. Here are some suggestions: "My First Book" Series by Wonder House Books, "Fun with Phonics" Series by Dreamland Publications, "Akbar and

Birbal" Stories by Om Books International, "Moral Stories" Series by Pegasus Team etc.

- Allow your child to take on age-appropriate tasks and responsibilities to build independence and confidence. Encourage them to dress themselves and use the washroom independently. They can help put out plates, utensils, and napkins for meals, water plants with a mug, straighten out their bed, arrange pillows, folding blankets, keep their room organized and help with simple chores around the house.
- Maintain a consistent daily routine to provide structure and stability for your child. Include designated times for play, learning activities, meals, and rest. Consistency helps children feel secure and allows them to thrive during the summer break.
- Incorporate learning into playtime by engaging in educational games and activities. Play board games that teach counting, sorting, and matching skills. Build structures with blocks or bricks to develop spatial awareness and problem-solving abilities.
- Encouraging your child to explore hobbies and interests that can spark joy and foster valuable skills. Whether it's dancing, singing, painting, playing a musical instrument, or exploring nature, nurturing their passions helps them grow creatively and emotionally.
- Please make sure they have a balance of creative play, outdoor activities and screen time.

**Kindly share videos and pictures of these activities on the personal WhatsApp window of the class teacher.**

Let's empower our children's learning journey by allowing them to complete their homework independently. Encourage and support them, but resist the urge to do it for them.

Together, let's foster self-reliance and a sense of accomplishment. Holiday homework will be graded under CCE; hence submission of work on time post vacation is mandatory for all the students.

Wishing you and your little explorer a wonderful holiday filled with joy, learning, and adventure!

Warm Regards!

Doon Team
