- Kindly take note of the activities scheduled in November **2025**:
- The month of **November** is dedicated to **Logical Thinking** for our young learners.
- **CURRICULAR GOAL 8:** Children make sense of world around through observation and logical thinking.
- **Skill of the Month:** Logical Thinking
- **Skill Days:** 21.11.25, 28.11.25
- **Birthday Bash:** 28.11.25
- **Birthday Theme:** Farmhouse
- **Colours:** Yellow, Brown & green

- **Gurpurab Celebration: 04.11.25**
- **Communicative skills activity: 17.11.25 to 21.11.25-**
- To enhance children's logical thinking and communication skills, a fun activity titled **“Guess What's in the Bag?”** will be conducted. Children will use their sense of touch to describe hidden objects and learn to speak about their guesses.
- The teachers will guide students daily with prompts and help them practice what to speak. The activity will culminate on 21st November 2025 (Friday), when children will share their thoughts with confidence.

- Below are some specially curated activities that can be taken up at home to support this month's curricular goal:

-  **Pattern Detectives**

- Encourage your child to find patterns around the house — in tiles, curtains, or clothing. Ask them what comes next in the pattern (for example: red-blue-red-blue). This helps develop observation and logical reasoning.

-  **Number Sorting Fun**

- Give your child buttons, blocks, or bottle caps of different sizes or colors. Ask them to group and count them — by shape, colour, or number. This simple activity builds sorting, classifying, and problem-solving skills.
